

FLAT PANEL MONITORS

29LR SERIES

RACK MOUNT LCD MONITORS

APPLICATION NOTES

KME has developed a comprehensive range of Rack mountable LCD Monitors for Industrial applications.

Our philosophy is quite simple – we use LCD monitor Heads (29LM series) from our existing flat-panel industrial monitor range and integrate them with metal panels to industry-standard dimensions.

Rack Mount Monitors have a full range of controls at the front and standard spaced holes for 19" rack mounting. As a general rule Rack mounted monitors are normally supplied finished in RAL 7032.

We know that there will be occasions when this standard range is not exactly suited to all customer requirements – and we remain willing to customise colours or dimensions to market demands.

17.0" LCD Rack mount monitor finished in RAL7032

DISPLAY FEATURES

- 12.1", 15.0", 17.0", 19.0" TFT Panel sizes
